

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The declensions and conjugations are well stated and illustrated by references to the Greek, Latin, French, and other languages. A philosophical spirit pervades every part. The Delectus consists of short pieces on various subjects, with extracts from Anglo-Saxon History and the Saxon Chronicle. There is a good Glossary at the end."—*Athenæum*, Oct. 20, 1849.

- Containing an immense body of information on a language which is now becoming more fully appreciated, and which contains fifteen-twentieths of what we daily think, and speak, and write. No Englishman, therefore, altogether ignorant of Anglo-Saxon, can have a thorough knowledge of his own mother-tongue; while the language itself, to say nothing of the many valuable and interesting works preserved in it, may, in copiousness of words, strength of expression, and grammatical precision, vie with the modern German.
- 164 **A GUIDE to the Anglo-Saxon Tongue: a Grammar after Erasmus Rask, with Readings in Prose and Verse, and Notes for the Use of Learners, with an Appendix by E. J. Vernon, B.A., Oxon.** 12mo, *cloth*. 5s 1850
- "Mr. Vernon has, we think, acted wisely in taking Rask for his model; but let no one suppose from the title that the book is merely a compilation from the work of that philologist. The accidence is abridged from Rask, with constant revision, correction, and modification; but the syntax, a most important portion of the book, is original, and is compiled with great care and skill; and the latter half of the volume consists of a well-chosen selection of extracts from Anglo-Saxon writers, in prose and verse, for the practice of the student, who will find great assistance in reading them from the grammatical notes with which they are accompanied, and from the glossary which follows them. This volume, well studied, will enable any one to read with ease the generality of Anglo-Saxon writers; and its cheapness places it within the reach of every class. It has our hearty recommendation."—*Literary Gazette*.

"Notwithstanding the important publications of which Ecclesiastical Architecture has been the theme, we consider these volumes entitled to a high place among them, not only on account of the illustrative plates and woodcuts, but also in respect of the new views, at which a careful and diligent study of the monuments themselves has enabled the author to arrive; he appears to have availed himself of every ancient monument which can possibly shed light on his subject. Reliquaries, Illuminations, Coins, and other objects, are pressed into his service. The details of the various edifices, of which there is a vast number given, are of the highest value to the Archæological Student."

Frequently as we read of the Works of Caxton and the early English Printers, and of their Black-Letter Books, very few persons ever had the opportunity of seeing any of these productions, and forming a proper estimate of the ingenuity and skill of those who first practised the "Noble Art of Printing."

This reproduction of the first work printed by Caxton at Westminster, containing 23 woodcuts, is intended in some measure to supply this deficiency, and bring the present age into somewhat greater intimacy with the Father of English Printers.

THE TYPE HAS BEEN CAREFULLY IMITATED, and the cuts traced, from the copy in the British Museum. The Paper and Water-marks have also been made expressly, as near as possible, like the original; and the Book is accompanied by a few remarks of a practical nature, which have been suggested during the progress of the fount, and the necessary study and comparison of Caxton's Works with those of his contemporaries in Germany, by Mr. V. FRIGINS.

- "The inquiry into the origin and signification of the suits and their marks, and the heraldic, theological, and political emblems pictured, from time to time, in their changes, opens a new field of antiquarian interest; and the perseverance with which Mr. Chatto has explored it, leaves little to be gleaned by his successors. The plates with which the volume is enriched add considerably to its value in this point of view. It is not to be denied that, take it altogether, it contains more matter than has ever before been collected in one view upon the same subject. In spite of its faults, it is exceedingly amusing; and the most critical reader cannot fail to be entertained by the variety of curious outlying learning, Mr. Chatto has somehow contrived to draw into the investigations."—*Atlas.*

Its title vouches that *Christmastide* is germane to the time. Mr. Sandys has brought together, in an octavo of some 300 pages, a great deal of often interesting information beyond the stale gossip about "Christmas in the olden time," and the threadbare make-believes of jollity and geniality which furnish forth most books on the subject. His carols too, which include some in old French and Provençal, are selected from numerous sources, and comprise many of the less known and more worth knowing. His materials are presented with good feeling and mastery of his theme. On the whole the volume deserves, and should anticipate, a welcome.—*Spectator*.

PRIVATELY PRINTED BY THE MAITLAND CLUB, *Edinb.* 1839

The Chronicle of Lanercost, *now printed for the first time*, contains a general history of the affairs of England and Scotland, together with incidental allusions to Continental proceedings, 1201 to 1346. The highest estimation is given of the work by Wanley, Nicholson, Lord Hailes, and Tyrrell the historian, who says "I have been beholden to the Manuscript Chronicle of the Abbey of Lanercost, in Cumberland, which contains so exact an account of our English affairs, especially in all things relating to Scotland, that one may admire how these monks, that lived in so remote a corner of England, should have come to that nice and particular information of the most civil and military transactions."

This Chronicle is now first printed from the Autograph MS. of the author (a monk of Lynn), which is preserved in the Public Library at Cambridge. The history is carried down to the year 1417. It was written early in the reign of Edward IV., to whom it is dedicated. The text has been carefully collated

with the duplicate MS. which is preserved in the Library of Corpus Christi College, Cambridge. Historically, this Chronicle forms an important contribution to our literature, and throws much light upon the history of this country. Philologically, as a specimen of the state of the East Anglian dialect in the middle of the fifteenth century, it is of almost equal value; and this part of the subject is fully illustrated by an ample Glossary. Appended is a full Index, containing all names of persons and places, and so compiled as to afford a fair analysis of the contents of the work. The volume is also preceded by an Introduction, in which the credibility of the historian and the results of his labours are discussed. Five Appendices contain documents, &c., throwing light upon the Chronicle or upon the private history of the author. It cannot be doubted that Capgrave's Chronicle will be welcomed by earnest students of our history; while the fact that it is written in our own language, and in an interesting and simple style, invests it with additional attractions.

- 1314 CHRONICON Monasterii de Abingdon. Edited by the Rev. Joseph Stevenson, M.A., of University College, Durham. Vol. I., from the Foundation of the Monastery until the Norman Conquest. Pp. 528, *with illuminated facsimile page*, royal 8vo, *half bound*. 8s 6d 1858

This Chronicle, when completed, will embrace a history of the large Benedictine monastery of Abingdon, from the date of its foundation, at an early period of Saxon history, to the accession of King Richard I. It is printed, for the first time, from two MSS. in the British Museum. The contents of the first volume show the steps by which this large and wealthy establishment, like others of its order, acquired the wide extent of lands and privileges of which its monks were deprived by Henry VIII. These title-deeds were granted for the most part by the Saxon kings, from Ina to Edward the Confessor. They illustrate not only the monastic, but also the general history of this kingdom, during these obscure and remote ages, and its gradual advances in civilization. To the local antiquary of Berkshire, Oxford, and the neighbouring counties, they will afford a large amount of interesting material.

This and the foregoing volume are the first of a series published by government under the direction of the Rt. Hon. Sir J. Romilly, Master of the Rolls.

- Lilly was undoubtedly a man of genius. His works, his plays especially, are full of imagination and humour. They display great energy and activity of intellect, and sparkle upon occasion with genuine wit. He is worthy to rank in the noble brotherhood of generous and cultivated spirits who shine like lesser stars around the great central fire of Shakspeare. Ben Jonson must have rated him highly, to have named him in the commendatory verses on Shakspeare as one of the poet's "peers," with whom he would have contrasted him, had he thought posterity would care to know how far he did
 "our Lyly outshine,
 Or sporting Kyd, or Marlowe's mighty line."
- Shakspeare seems to have paid him the compliment of working out some of the ideas which occur in his plays. Mr. Fairholt has done his work as editor well. His notes are good, brief, and to the purpose.—*Literary Gazette.*

- The edition deserves well of the public; it is carefully printed, and the annotations, although neither numerous nor extensive, supply ample explanations upon a variety of interesting points. If Mr. Halliwell had done no more than collect these plays, he would have conferred a boon upon all lovers of our old dramatic poetry.—*Literary Gazette.*

With numerous additions, forming EIGHT VOLUMES IN FOLIO, *half bound, morocco, containing 250 beautiful engravings (originally published at £141. 15s).* £20 1846
. This new edition of the Monasticon is reprinted from that edited by Messrs. Caley, Ellis, and Bandinel (the First Part appearing in 1817), upon which those eminent antiquaries were employed from the year 1812 to its completion in 1830. From the mode of publication then adopted, the work passed slowly through the press during a period of eighteen years, and consequently it was found impossible to keep up uniformity of paper and typography. The limited impression of 350 copies to which the last edition was confined, has in nowise injured the copper-plates, the greater part of which were executed by the late John Coney, from drawings made by him expressly for the work. The proprietors, owing to the improvements that have taken place, both in the manufacture of paper and in the art of copper-plate printing, are enabled to place before the public, at the comparatively low price of £25, a work superior to that for which the former subscribers paid no less than £141. 15s.

- 2521 GENT (Thos.).—Life of Mr. Thomas Gent, Printer, of York, written by himself. 8vo, *fine portrait, engraved by Aug. Fox, cloth*. 2s 6d (original price 9s) 1832 ✓
- The Author of this curious and hitherto unpublished piece of Autobiography is well known by the several works of which he was the author as well as printer. The narrative is full, written in an easy and unaffected style, interspersed with several pieces of Poetry; and from the number of adventures he went through in early life, and the characters and stories incidentally introduced, is extremely amusing. His occupation as a printer necessarily introduced him to the acquaintance of many literary men, and his book abounds with notices of Authors, Printers, &c., of the times in which he lived; among others occur the names of Bishop Atterbury, with whom he relates a singular interview, Browne Willis, and Dr. Drake the historian of York, &c. *The book requires no encomium to those who have read Southey's "Doctor."*

- The present volume is truly a worthy sequel to the "Surnames," in the same curious and antiquarian line, blending, with remarkable facts and intelligence, such a fund of amusing anecdote and illustration, that the reader is almost surprised to find that he has learnt so much, whilst he appeared to be pursuing mere entertainment. The text is so pleasing that we scarcely dream of its sterling value; and it seems as if, in unison with the woodcuts, which so cleverly explain its points and adorn its various topics, the whole design were intended for a relaxation from study, rather than an ample exposition of an extraordinary and universal custom, which produced the most important effect upon the minds and habits of mankind.—*Literary Gazette*.
- We can fairly recommend the "Curiosities of Heraldry" to all who feel interested in the literature, the architecture, the costume, or the manners of the middle ages. We know not where to find a manual which contains so much that is instructive, displayed in a form so attractive.—*Tablet*.

- This new and much-approved edition, besides a great enlargement of the chapters contained in the previous editions, comprises several that are entirely new, together with Notes on Scottish, Irish, and Norman Surnames. The "Additional Proslutions," besides the articles on Rebuses, Allusive Arms, and the Roll of Battel Abbey, contain Dissertations on Inn Signs, and Remarks on Christian Names: with a copious INDEX of many thousand names. These features render "English Surnames" rather a new work than a new edition.
- "A curious, ingenious, and amusing book. Mr. Lower brings considerable knowledge to bear, both in his general history of the use of Surnames in England, and in his chapters on the different ways in which particular classes of names have originated from names of places, occupations, dignities, offices, personal and mental qualities, &c."—*Spectator*.

"The translation of Homer, published by George Chapman, in the reign of Queen Elizabeth, is one of the greatest treasures the English language can boast."—GODWIN.

"Chapman writes and feels as a poet—as Homer might have written had he lived in England in the reign of Queen Elizabeth. It is an exquisite poem, with almost unexampled sweetness and beauty of language, all over spirit and feeling."—COLERIDGE.

"I have just finished Chapman's Homer. Did you ever read it?—it has the most continuous power of interesting you all along. * * * The earnestness and passion which he has put into every part of these poems would be incredible to a reader of mere modern translations."—CHARLES LAMB.

"Waller could never read over the translation of Chapman without incredible transport."—DRYDEN.

"Chapman's translation is *often exceedingly Homeric*; a praise which Pope seldom attained."—HALLAM.

"With Chapman, Pope had frequent consultations, and perhaps never translated any passage till he read his version; which indeed he has been sometimes suspected of using instead of the Greek."—DR. JOHNSON.

"Chapman—the vigorous and fiery translator of Homer."—ARTS WILLMOT.

"Chapman's truly grand version of Homer. * * * When we consider the subtle influence of poetry upon the rising spirits of the age, it tempts me to hazard the speculation that, if Chapman's noble paraphrase had been read, instead of Pope's enervating monotony, and as extensively, the present class of readers would have been more poetical," &c.—R. H. HORNE.

"Pope, Sotheby, and Cowper, the best known translators of Homer. By general consent, Chapman's version is *far more Homeric* than these."—PROFESSOR F. W. NEWMAN.

The editor of these five rare volumes has done an incalculable service to English Literature, by taking George Chapman's folios out of the dust of time-honoured libraries, by collating them with loving care and patience, and, through the agency of his enterprising publisher, bringing Chapman entire and complete within the reach of those who can best appreciate and least afford to purchase the early editions."—*Athenæum*.

"From the unpublished Anglo-Irish legislative enactments, and from such-like decayed and decaying manuscripts, ancient records, which have become almost hieroglyphics to the present age, the author of this work has gathered the life-history of an ancient city; he has made the stones to speak, and evoke the shadows of the past to fill up the outline of a great historical picture. Fifty, even twenty years hence, the production of such a work would be impossible. In a history illustrated by human lives and deeds, and localized in the weird old streets, once the proudest of our city, many a family will find an ancestral shadow starting suddenly to light, trailing with it long memories of departed fashion, grandeur, and magnificence."—*Dublin University Magazine*.

"We have been much interested with the originality and variety of this work. The author's research and reading are beyond dispute; and his performance leads us to expect still more from him as an authentic illustrator of the domestic life of Dublin in bygone days. Other writers, in fiction and history, will be indebted to him for the indication of much matter that might otherwise have remained unknown to them. The continuation of his work will be looked forward to with pleasure."—*Athenæum*.

"This will be the standard history of the Irish Capital. In the vast variety of the information, which one is astonished could have been so perfectly brought together—in the recondite sources from which the author gathered it, the greater part having been collected from ancient and deep-buried records—and in the scrupulous care with which every fact has been verified, this work stands almost alone in ability, interest, and research."—*Dublin Freeman's Journal*.

These volumes form a good companion to Ellis's Original Letters.

The collection comprises, for the first time, the love-letters of Henry VIII. to Anne Boleyn in a complete form, which may be regarded, perhaps, as the most singular documents of the kind that have descended to our times; the series of letters of Edward VI. will be found very interesting specimens of composition; some of the letters of James I., hitherto unpublished, throw light on the murder of Overbury, and prove beyond a doubt the King was implicated in it in some extraordinary and unpleasant way; but his letters to the Duke of Buckingham are of the most singular nature: only imagine a letter from a sovereign to his prime minister commencing thus:—"My own sweet and dear child, blessing, blessing, blessing on thy heart-roots and all thine." Prince Charles and the Duke of Buckingham's Journey into Spain has never been before so fully illustrated as it is by the documents given in this work, which also includes the very curious letters from the Duke and Duchess of Buckingham to James I. *Forming an essential companion to every History of England.*

4127*LIFE of Mr. Thomas Gent, Printer, of York, written by himself. 8vo, fine portrait, engraved by Aug. Fox, cloth. 2s 6d (orig. price 9s) 1832

The author of this curious and hitherto unpublished piece of Autobiography is well known by the several works of which he was the author as well as printer. The narrative is full, written in an easy and unaffected style, interspersed with several pieces of Poetry; and from the number of adventures he went through in early life, and the characters and stories incidentally introduced, is extremely amusing. His occupation as a printer necessarily introduced him to the acquaintance of many literary men, and his book abounds with notices of authors, printers, &c., of the times in which he lived; among others occur the names of Bishop Atterbury—with whom he relates a singular interview—Browne Willis, and Dr. Drake, the historian of York, &c. The book requires no encomium to those who have read Southey's "Doctor."

 "— written at three, four, and five o'clock (in the morning) by an Octogenary pen, a heart (as Mrs. Lee says) twenty-six years old, and as H. L. P. feels it to be *all your own*."—*Letter V. 3rd Feb. 1820*.
 "This is one of the most extraordinary collections of love epistles we have chanced to meet with, and the well-known literary reputation of the lady—the Mrs. Thrale, of Dr. Johnson and Miss Burney celebrity—considerably enhances their interest. The letters themselves it is not easy to characterise; nor shall we venture to decide whether they more bespeak the drivelling of dotage, or the folly of love; in either case they present human nature to us under a new aspect, and furnish one of those riddles which nothing yet dreamt of in our philosophy can satisfactorily solve."—*Polytechnic Review*.

This new and much-improved Edition, besides a great enlargement of the Chapters contained in the previous editions, comprises several that are entirely new, together with Notes on Scottish, Irish, and Norman Surnames. The "Additional Prolusions," besides the articles on Rebuses, Allusive Arms, and the Roll of Battel Abbey, contain Dissertations on Inn Signs, and Remarks on Christian Names; with a copious INDEX of many thousand names. These features render "English Surnames" rather a new work than a new edition.

- The Glossary of Archdeacon Nares is by far the best and most useful work we possess for explaining and illustrating the obsolete language and the customs and manners of the sixteenth and seventeenth centuries, and it is quite indispensable for the readers of the literature of the Elizabethan period. The additional words and examples are distinguished from those in the original text by a † prefixed to each. The work contains between five and six thousand additional examples, the result of original research, not merely supplementary to Nares, but to all other compilations of the kind. With these advantages it is hoped that the new edition of Nares's Glossary now offered to the public will be found worthy of its patronage.

"The neighbourhood of Banbury is rich in British, Roman, Saxon, Norman, and English Antiquities, of all which Mr. Beesley has given regularly cleared accounts. Banbury holds an important place in the history of the Parliamentary War of the seventeenth century, and was the scene of the great Battle of Edghill, and of the important fight of Cropredy Bridge. Relating to the events of that period, the author has collected a great deal of local information of the most interesting kind. By no means the least valuable part of Mr. Beesley's work is his account of the numerous interesting early churches which characterize the Banbury district."—*The Archæologist*.

- “The Vision of ‘Piers Ploughman’ is one of the most precious and interesting monuments of the English Language and Literature, and also of the social and political condition of the country during the fourteenth century. . . . Its author is not certainly known, but its time of composition can, by internal evidence, be fixed at about the year 1362. On this and on all matters bearing upon the origin and object of the Poem, Mr. Wright’s historical introduction gives ample information. . . . In the thirteen years that have passed since the first edition of the present text was published by the late Mr. Pickering, our old literature and history have been more studied; and we trust that a large circle of readers will be prepared to welcome this cheaper and carefully revised reprint.”—*Literary Gazette.*

The inquiry into the origin and signification of the suits and their marks, and the heraldic, theological, and political emblems pictured, from time to time, in their changes, opens a new field of antiquarian interest; and the perseverance with which Mr. Chatto has explored it, leaves little to be gleaned by his successors. The plates with which the volume is enriched add considerably to its value in this point of view. It is not to be denied that, take it altogether, it contains more matter than has ever before been collected in one view upon the same subject. In spite of its faults, it is exceedingly amusing; and the most critical reader cannot fail to be entertained by the variety of curious outlying learning Mr. Chatto has somehow contrived to draw into the investigation.—*Atlas.*

"The author of this volume may justly claim credit for considerable learning, great industry, and, above all, strong faith in the interest and importance of his subject. . . . On various points he has given us additional information, and afforded us new views, for which we are bound to thank him. The body of the book is followed by a very complete Index, so as to render reference to any part of it easy: this was the more necessary on account of the multifariousness of the topics treated, the variety of persons mentioned, and the many works quoted."—*Athenæum*, Oct. 8, 1853.

"The Rev. Beale Poste has long been known to antiquaries as one of the best read of all those who have elucidated the earliest annals of this country. He is a practical man, has investigated for himself monuments and manuscripts, and we have in the above-named volume the fruits of many years' patient study. The objects which will occupy the attention of the reader are—1. The political position of the principal British powers *before* the Roman conquest—under the Roman dominion, and struggling unsuccessfully against the Anglo-Saxon race; 2. The geography of Ancient Britain; 3. An investigation of the Ancient British Historians, Gildas and Nennius, and the more obscure British chroniclers; 4. The ancient stone monuments of the Celtic period; and, lastly, some curious and interesting notices of the early British church. Mr. Poste has not touched on subjects which have received much attention from others, save in cases where he had something new to offer, and the volume must be regarded, therefore, as an entirely new collection of discoveries and deductions tending to throw light on the darkest as well as the earliest portion of our national history."—*Atlas*.

- The plates are admirably executed by Mr. Basire, and coloured under the direction of the Author. It is a work well worthy the notice of the Archæologist.
- We look upon Mr. Akerman's work as a boon to the English Archæologist. He brings together, from a great number of different quarters, objects whose full interest can only be duly appreciated when they are compared and studied together, ... The selection is such, as not only to be of service in a scientific view, but also to present a very interesting and ornamental representation of the household implements and jewellery of our Anglo-Saxon forefathers. Mr. Akerman has prefixed to his work a short Introduction, written in a very just and sound spirit, and which will be read with pleasure and interest even by the *layman*, with profit even by the professed antiquary.—MR. "It must be observed that this is not a mere account of St. Patrick's Purgatory, but a complete history of the legends and superstitions relating to the subject, from the earliest times, rescued from old MSS. as well as from printed books. Moreover, it embraces a singular chapter of literary history omitted by Warton and all former writers with whom we are acquainted; and we think we may add, that it forms the best introduction to Dante that has yet been published."—*Literary Gazette.*

- 6263* THE CHANDOS Portrait of Shakespeare, engraved in the first style of Art by Samuel Cousins. Folio. 15s
- This highly interesting portrait of the great poet ranks, in the authenticity of its likeness, with the Stratford Bust and the Droeshout Engraving, before the highly priced and highly prized folio of 1623. Its genealogy has been traced from Sir William Davenant (who lived with those to whom Shakespeare was personally known) to Betterton the great actor, thence to Mrs. Barry the great actress, who sold it for forty guineas to Mr. Keck, from whom it descended to the Duke of Buckingham, and at the Stowe sale was bought by the Earl of Ellesmere for 355 guineas. Another proof of its genuineness, if other proof is wanting, is that Sir Godfrey Kneller made a copy of it for Dryden, and that the copy thus made is now at Earl Fitzwilliam's, at Wentworth House, in Yorkshire, as an old inscription on its back attests. Dr. Waagen has described the Chandos Portrait in his able account of the Bridgwater Gallery, and refers to Mr. Cousins's engraving as "a very faithful version of the portrait." He also alludes to the Kneller copy as corroborating the truth of the Chandos original. The plate was destroyed by the Shakespeare Society after a very limited number of impressions.
- 6264 SHAKESPEARE'S Comedies, Histories, and Tragedies, published according to the true original copies. Folio, THE SECOND IMPRESSION, *portrait by Droeshout, with the opposite verses which are facsimiled with printers' ink (nine out of ten would not detect their genuineness, so admirably are they executed)* GOOD LARGE COPY, *in russia, gilt leaves*. £12. 12s 1632

- "Skelton is a curious, able, and remarkable writer, with strong sense, a vein of humour, and some imagination; he had a wonderful command of the English language, and one who was styled, in his turn, by as great a scholar as ever lived (Erasmus), 'the light and ornament of Britain.' He indulged very freely in his writings in censures on Mouks and Dominicans; and, moreover, had the hardihood to reflect, in no very mild terms, on the manners and life of Cardinal Wolsey. We cannot help considering Skelton as an ornament of his own time, and a benefactor to those who come after him."

 "The Liber Landavensis is the ancient Chartulary or Register Book of the Cathedral of Llandaff, in which are recorded memoirs of its most eminent prelates, grants of endowments, and other particulars respecting the Church and Diocese. It was compiled in the early part of the twelfth century from older materials, and is one of the most valuable authorities we possess for the antiquity of the British Churches; as such it well deserved the attention of the Society for the Publication of Ancient Welsh MSS., and is an auspicious commencement of their literary career."—*Athenæum*.

- 7325 WILTSHIRE Tales, illustrative of the Manners, Customs, and Dialect of that and adjoining Counties. By John Yonge Akerman. 12mo, *cloth*. 2s 6d 1853

We will conclude with a simple but hearty recommendation of a little book which is as humorous for the drolleries of the stories as it is interesting as a picture of rustic manners.—*Tallis's Weekly Paper*.

Mr. Akerman's WILTSHIRE TALES embody most of the provincialisms peculiar to this county and the districts of other counties lying on its northern borders, and possess the additional recommendation of preserving the old songs (and the airs to which they are sung), which are still to be heard at most harvest homes and other merry makings,—the well-known "Here's a health to our Meester," and "A pie upon the pear-tree top," among the rest. Both to the philologist, therefore, and to the general reader, the book is an interesting one.—*Salisbury and Winchester Journal*.

- “We are under great obligations to the lady, sister to the local historian of Northamptonshire, who has occupied her time in producing this very capital Glossary of Northamptonshire provincialisms.”—*Examiner*.
- “The provincial dialects of England contain and preserve the elements and rudiments of our compound tongue. In Miss Baker's admirable ‘Northamptonshire Glossary’ we have rather a repertory of archaisms than vulgarisms. But it is much more than a vocabulary: it preserves not only dialectical peculiarities, but odd and disappearing customs; and there is hardly a page in it which does not throw light on some obscurity in our old writers, or recalc old habits and practices.”—*Christian Remembrancer, Quarterly Review*.

FACSIMILE OF THE BIBLIA PAUPERUM.

Just Published,
ROYAL QUARTO, half bound, price £2. 2s.,

BIBLIA PAUPERUM.

(THE POOR MAN'S BIBLE.)

*One of the earliest and most curious Block-books, reproduced in facsimile
from a Copy in the British Museum,*

WITH AN HISTORICAL AND BIBLIOGRAPHICAL INTRODUCTION,

BY J. PH. BERJEAU.

THE *Biblia Pauperum*, known also by the title of *Historie Veteris et Novi Testamenti*, is a set of woodcuts, in which the Old and New Testament are both brought to memory by pictures, and some lines of text in Latin. This name *Biblia Pauperum* is derived from its use by Monks of the poorer orders, commonly called *Pauperes Christi*.

As a specimen of the earliest woodcuts and of printed block-books, destined to supersede the manuscripts anterior to the valuable invention of Güttenberg, the *Biblia Pauperum* is well worthy the attention of the amateur of fine arts as well as of the bibliographer. It consists of forty engravings, printed on one side only of the leaves, and disposed so as to have the figures opposite each other;—the blank pages are still, or were, pasted together in most of the copies.

The engravings were printed by friction, with a substance of a brownish yellow colour, instead of printing ink, which was unknown at this early period.

To imitate, as near as possible, the original, the plates in this facsimile are disposed opposite each other, and printed in a brownish colour.

Various editions of this block-book have been discovered without any writer having been able to say which is the first one. A review of them is given in the printed introduction to the book.

Besides the rhymed Latin poetry—of which part was given by Heineken, and after him by Ottley—the introduction gives, for the first time, the whole of the text printed on both sides in the upper compartment, as well as an English explanation of the subjects.

ONLY 250 COPIES HAVE BEEN PRINTED, UNIFORMLY WITH
MR. S. LEIGH SOTHEBY'S "*Principia Typographica*."

* * * *The opposite facsimile will afford the reader an idea of the work, but it does not do justice to the book, being obliged to be printed on thin paper with a narrow margin.*

The Game of the Chess,

BY

William Caxton.

Reproduced in facsimile from a copy in the British Museum.
With a few remarks on Caxton's Typographical
Productions.

by

Vincent Figgins.

Frequently as we read of the Works of Caxton and the early English Printers, and of their Black-Letter Books, very few persons ever had the opportunity of seeing any of these productions, and forming a proper estimate of the ingenuity and skill of those who first practised the "Noble Art of Printing."

THE TYPE HAS BEEN CAREFULLY IMITATED, AND THE WOODCUTS FACSIMILIED BY MISS BYFIELD. The Paper and Water-marks have also been made expressly, as near as possible, like the original; and the Book is accompanied by a few remarks of a practical nature, which have been suggested during the progress of the fount, and the necessary study and comparison of Caxton's Works with those of his contemporaries in Germany, by Mr. V. FIGGINS, who spent two years "labour of love" in cutting the matrixes for the type.

His occupation as

a printer necessarily introduced him to the acquaintance of many literary men, and his book abounds with notices of Authors, Printers, &c., of the times in which he lived; among others occur the names of Bishop Atterbury, with whom he relates a singular interview, Browne Willis, and Dr. Drake, the historian of York, &c. *The Book requires no encomium to those who have read Southey's "Doctor."*

LOVE LETTERS OF MRS. PIOZZI, (*formerly Mrs. Thrale, the friend of Dr. Johnson*), written when she was Eighty, to the handsome actor, William Augustus Conway, aged Twenty-seven. 8vo, sewed. 2s.

"—written at three, four, and five o'clock (in the morning) by an Octogenary pen, a heart (as Mrs. Lee says) twenty-six years old, and as H. L. F. feels it to be, *all your own.*"—*Letter F, 8d Feb. 1820.*

"This is one of the most extraordinary collections of love epistles we have ever chanced to meet with, and the well known literary reputation of the lady—the Mrs. Thrale, of Dr. Johnson and Miss Burney

celebrity—considerably enhances their interest. The letters themselves it is not easy to characterise; nor shall we venture to decide whether they more bespeak the drivelling of dotage, or the folly of love; in either case they present human nature to us under a new aspect, and furnish one of those riddles which nothing yet dreamt of in our philosophy can satisfactorily solve."—*Polytechnic Review.*

ANGLO-SAXON DELECTUS; serving as a first Class-Book to the Language. By the Rev. W. BARNES, B.D., of St. John's Coll. Camb. 12mo, cloth, 2s. 6d.

"To those who wish to possess a critical knowledge of their own Native English, some acquaintance with Anglo-Saxon is indispensable; and we have never seen an introduction better calculated than the present to supply the wants of a beginner in a short space of time. The declensions and conjugations are well

stated, and illustrated by references to Greek, the Latin, French, and other languages. A philosophical spirit pervades every part. The Delectus consists of short pieces on various subjects, with extracts from Anglo-Saxon History and the Saxon Chronicle. There is a good Glossary at the end."—*Athenæum*, Oct. 20, 1849.

GUIDE TO THE ANGLO-SAXON TONGUE: on the Basis of Professor Rask's Grammar; to which are added, Reading Lessons in Verse and Prose, with Notes for the use of Learners. By E. J. VERNON, B.A., Oxon. 12mo, cloth, 5s. 6d.

"The author of this Guide seems to have made one step in the right direction, by compiling what may be pronounced the best work on the subject hitherto published in England."—*Athenæum.*

"Mr. Vernon has, we think, acted wisely in taking Rask for his Model; but let no one suppose from the title that the book is merely a compilation from the work of that philologist. The accidence is abridged from Rask, with constant revision, correction, and modification; but the syntax, a most important portion of the book, is original, and is compiled with great

care and skill; and the latter half of the volume consists of a well-chosen selection of extracts from Anglo-Saxon writers, in prose and verse, for the practice of the student, who will find great assistance in reading them from the grammatical notes with which they are accompanied, and from the glossary which follows them. This volume, well studied, will enable any one to read with ease the generality of Anglo-Saxon writers; and its cheapness places it within the reach of every class. It has our hearty recommendation."—*Literary Gazette.*

ANALECTA ANGLO-SAXONICA.—Selections, in Prose and Verse, from Anglo-Saxon Literature, with an Introductory Ethnological Essay, and Notes, Critical and Explanatory. By **LOUIS F. KLIPSTEIN**, of the University of Giessen. 2 thick vols, post 8vo, cloth. 12s. (*original price 18s.*)

Containing an immense body of information on a language which is now becoming more fully appreciated, and which contains fifteen-twentieths of what we daily think, and speak, and write. No Englishman, therefore, altogether ignorant of Anglo-Saxon, can

have a thorough knowledge of his own mother-tongue; while the language itself, to say nothing of the many valuable and interesting works preserved in it, may in copiousness of words, strength of expression, and grammatical precision, vie with the modern German.

maining, and explanatory of all the symbolical signs in early sculpture and painting); the Bestiary of Philippe de Thau, with a translation; Fragments on Popular Science from the Early English Metrical Lives of the Saints, (the earliest piece of the kind in the English Language.)

SKELTON'S (John, *Poet Laureat to Henry VIII*) Poetical Works: the Bowge of Court, Colin Clout, Why come ye not to Court? (his celebrated Satire on Wolsey), Phillip Sparrow, Elinour Rummung, &c.; with Notes and Life. By the Rev. **A. DYOS**. 2 vols, 8vo, cloth. 14s. (*original price £1. 12s.*)

"The power, the strangeness, the volubility of his language, the audacity of his satire, and the perfect originality of his manner, made Skelton one of the most extraordinary writers of any age or country."—*Southey*.

"Skelton is a curious, able, and remarkable writer, with strong sense, a vein of humour, and some imagination; he had a wonderful command of the English language, and one who was styled, in his turn, by as

great a scholar as ever lived (Erasmus), 'the light and ornament of Britain.' He indulged very freely in his writings in censures on monks and Dominicans; and, moreover, had the hardihood to reflect, in no very mild terms, on the manners and life of Cardinal Wolsey. We cannot help considering Skelton as an ornament of his own time, and a benefactor to those who come after him."

SEMI-SAXON.—The Departing Soul's Address to the Body, a Fragment of a Semi-Saxon Poem, discovered among the Archives of Worcester Cathedral, by Sir THOMAS PHILLIPPS, Bart., with an English Translation by S. W. SINGER. 8vo, only 100 PRIVATELY PRINTED. 2s.

are not to be found in ordinary Dictionaries and books of reference. Most of the principal Archaisms are illustrated by examples selected from early inedited MSS. and rare books, and by far the greater portion will be found to be original authorities.

"The interest which the curious poem, of which this publication is chiefly composed, has excited, is proved by the fact of its having been translated into German, and of its having reached a second edition,

which is not common with such publications. Mr. Halliwell has carefully revised the new edition, and increased its utility by the addition of a complete and correct glossary."—*Literary Gazette.*

TORRENT OF PORTUGAL; an English Metrical Romance, now first published, from an unique MS. of the XVth Century, preserved in the Chetham Library at Manchester. Edited by J. O. HALLIWELL, &c. Post 8vo, *cloth, uniform with Ritson, Weber, and Ellis's publications.* 5s.

"This is a valuable and interesting addition to our list of early English metrical romances, and an indispensable companion to the collections of Ritson, Weber, and Ellis."—*Literary Gazette.*

"A literary curiosity, and one both welcome and serviceable to the lover of black-lettered lore. Though the obsolescence of the style may occasion sad stum-

bling to a modern reader, yet the class to which it rightly belongs will value it accordingly; both because it is curious in its details, and possesses philological importance. To the general reader it presents one feature, viz., the reference to Wayland Smith, whom Sir W. Scott has invested with so much interest."—*Metropolitan Magazine.*

HARROWING OF HELL; a Miracle Play, written in the Reign of Edward II, now first published from the Original in the British Museum, with a Modern Reading, Introduction, and Notes. By JAMES ORCHARD HALLIWELL, Esq., F.R.S., F.S.A., &c. 8vo, *sewed.* 2s.

"Besides the curious specimens of the dramatic style of Middle-Age Latinity, Mr. Wright has given two compositions in the Narrative Elegiac Verse (a favourite measure at that period), in the *Comœdia Babionis* and the *Geta* of Vitalis Bicensis, which form a link of connection between the Classical and Middle-age Literature; some remarkable Satyrical Rhymes

on the people of Norfolk, written by a Monk of Peterborough, and answered in the same style by John of St. Omer; and, lastly, some sprightly and often graceful songs from a MS. in the Arundel Collection, which afford a very favourable idea of the lyric poetry of our clerical forefathers."—*Gentleman's Magazine*.

The utility of a Provincial Glossary to all persons desirous of understanding our ancient poets, is so universally acknowledged, that to enter into a proof of it

would be entirely a work of supererogation. Grosse and Pegge are constantly referred to in Todd's "Johnson's Dictionary."

Burns; the "Gentleman's Magazine" for December, 1844, gave a review of the First Edition some pages in length.

NUMISMATIC ILLUSTRATIONS of the Narrative Portions of the NEW TESTAMENT. By J. Y. AKERMAN. 8vo, numerous woodcuts from the original coins in various public and private collections. cloth. 5s.

"Archæology is under a peculiar obligation to Mr. Akerman. To him more than to any other living man, is due the praise of having converted multitudes to the love of antiquarian research. To him we all owe the pleasant debt of an instructive acquaintance, not only with the beautiful money of Ancient Greece and Rome, but with the once barbarous, though not less interesting, coins of our earliest history. And to him now especially, the cause of religion can bring its tribute

of commendation for light thrown upon Holy Writ, through the medium of "the unrighteous Mammon." The New Testament has, it appears, in the compass of the Gospels and Acts, no less than 33 allusions to the coinage of Greece, Rome, and Judæa; and these beautifully engraved, and learnedly described, give Mr. Akerman an opportunity of serving the good cause of truth in the way of his peculiar avocation."—*Church of England Journal*.

"The neighbourhood of Banbury is equally rich in British, Roman, Saxon, Norman, and English Antiquities, of all which Mr. Beesley has given regularly cleared accounts. Banbury holds an important place in the history of the Parliamentary War of the Seventeenth Century, and was the scene of the great Battle of Edgehill, and of the important fight of Cropredy Bridge. Relating to the events of that period, the

author has collected a great body of local information of the most interesting kind. By no means the least valuable part of Mr. Beesley's work, is his account of the numerous interesting early churches, which characterize the Banbury district."—*The Archaeologist*.

CURIOSITIES OF HERALDRY, with Illustrations from Old English Writers. By MARK ANTONY LOWER, M.A., Author of "Essays on English Surnames;" with illuminated title-page, and numerous engravings from designs by the Author. 8vo, cloth. 14s.

"The present volume is truly a worthy sequel (to the 'SURNAMES') in the same curious and antiquarian line, blending with remarkable facts and intelligence, such a fund of amusing anecdote and illustration, that the reader is almost surprised to find that he has learned so much, whilst he appeared to be pursuing mere entertainment. The text is so pleasing that we scarcely dream of its sterling value; and it seems as if, in unison with the woodcuts, which so cleverly explain its points and adorn its various topics, the whole design were intended for a relaxation from study, rather

than an ample exposition of an extraordinary and universal custom, which produced the most important effect upon the minds and habits of mankind."—*Literary Gazette*.

"Mr. Lower's work is both curious and instructive, while the manner of its treatment is so inviting and popular, that the subject to which it refers, which many have hitherto had too good reason to consider meagre and unprofitable, assumes, under the hands of the writer, the novelty of fiction with the importance of historical truth."—*Athenaeum*.

PEDIGREES OF THE NOBILITY AND GENTRY OF HERTFORDSHIRE. By WILLIAM BERRY, late, and for fifteen years, Registering Clerk in the College of Arms, author of the "Encyclopaedia Heraldica," &c. &c. Folio, (only 125 printed.) £1. 5s. (original price £3. 10s.)

GENEALOGICAL AND HERALDIC HISTORY OF THE EXTINCT AND DORMANT BARONETCIES of England, Ireland, and Scotland. By J. BURKE, Esq. Medium 8vo, SECOND EDITION, 638 closely printed pages, in double columns, with about 1000 arms engraved on wood, fine portrait of JAMES I., and illuminated title-page, cloth. 10s. (original price £1. 8s.)

This work engaged the attention of the author for several years, comprises nearly a thousand families, many of them amongst the most ancient and eminent in the kingdom, each carried down to its represent-

ative or representatives still existing, with elaborate and minute details of the alliances, achievements, and fortunes; generation after generation, from the earliest to the latest period.

ENGLISH SURNAMES. An Essay on Family Nomenclature, Historical, Etymological, and Humorous, with several illustrative Appendices. By MARK ANTONY LOWER, M.A. 2 vols., post 8vo, THIRD EDITION, ENLARGED, woodcuts, cloth. 12s.

This new and much improved Edition, besides a great enlargement of the Chapters, contained in the previous editions, comprises several that are entirely new, together with Notes on Scottish, Irish, and Norman Surnames. The "Additional Prolegomena," besides the articles on Rebuses, Allusive Arms, and the Roll of Battle Abbey, contain dissertations on Ian signs, and Remarks on Christian Names; with a copious INDEX of many thousand Names. These features render "English Surnames" rather a new work than a new edition.

"A curious, ingenious, and amusing book, Mr. Lower brings considerable knowledge to bear, both in his general history of the use of Surnames in England,

and in his chapters on the different ways in which particular classes of names have originated from names of places, occupations, dignities, offices, personal and mental qualities, &c."—*Spectator*.

"Mr. Lower has gone to work in the true spirit of antiquarian discovery, and a most amusing and instructive book he has produced."—*Brighton Herald*.

"A curious work, and got up, moreover, with that commendable attention to paper and typography which is certain to make a book 'take the eye.' . . . Mr. Lower has been 'at a great feast of languages, and has stolen more than the 'scraps.' He both instructs and entertains."—*John Bull*.

PLAYING CARDS.—Facts and Speculations on the History of Playing Cards in Europe. By W. A. CHATTO, author of the "History of Wood Engraving," with Illustrations by J. JACKSON. 8vo, *profusely illustrated with engravings, both plain and coloured*, cloth. £1. 1s.

"The inquiry into the origin and signification of the suits and their marks, and the heraldic, theological, and political emblems pictured from time to time, in their changes, opens a new field of antiquarian interest; and the perseverance with which Mr. Chatto has explored it leaves little to be gleaned by his successors. The plates with which the volume is enriched add considerably to its value in this point of view. It is not to be denied that, take it altogether, it contains more matter than has ever before been collected in one view upon the same subject. In spite of its faults,

it is exceedingly amusing; and the most critical reader cannot fail to be entertained by the variety of curious outlying learning Mr. Chatto has somehow contrived to draw into the investigations."—*Atlas*.

"Indeed the entire production deserves our warmest approbation."—*Lit. Gas.*

"A perfect fund of antiquarian research, and most interesting even to persons who never play at cards."—*Tait's Mag.*

"A curious, entertaining and really learned book."—*Rambler*.

THE NURSERY RHYMES OF ENGLAND, collected chiefly from Oral Tradition. Edited by J. O. HALLIWELL. The FOURTH EDITION, enlarged, with 88 Designs, by W. B. SCOTT, *Director of the School of Design, Newcastle-on-Tyne*. 12mo, illuminated cloth, gilt leaves. 4s. 6d.

"Illustrations! and here they are; clever pictures, which the three-year olds understand before their A, B, C, and which the fifty-three-year olds like almost as well as the threes."—*Literary Gazette*.

"We are purrured that the very rudest of these jingles, tales, and rhymes, possess a strong imagination nourishing power; and that in infancy and early child-

hood a sprinkling of ancient nursery lore is worth whole cartloads of the wise saws and modern instances which are now as duly and carefully concocted by experienced *littérateurs*, into instructive tales for the spelling public, as are works of entertainment for the reading public. The work is worthy of the attention of the popular antiquary."—*Tait's Mag.*

ESSAY ON THE ARCHÆOLOGY OF OUR POPULAR PHRASES AND NURSERY RHYMES. By J. B. KER. 2 vols. 12mo, new cloth. 4s. (original price 12s.)

A work which has met with much abuse among the reviewers, but those who are fond of philological pursuits will read it now it is to be had at so very moderate a price, and it really contains a good deal of

gossiping matter. The author's attempt is to explain every thing from the Dutch, which he believes was the same language as the Anglo-Saxon.

MERRY TALES OF THE WISE MEN OF GOTHAM. Edited by JAMES ORCHARD HALLIWELL, Esq., F.S.A. Post 8vo. 1s.

SAINT PATRICK'S PURGATORY; an Essay on the Legends of Hell, Purgatory, and Paradise, current during the Middle Ages. By THOMAS WRIGHT, M.A., F.S.A., &c. Post 8vo, cloth. 6s.

"It must be observed that this is not a mere account of St. Patrick's Purgatory, but a complete history of the legends and superstitions relating to the subject, from the earliest times, rescued from old MSS. as well as from old printed books. Moreover, it embraces a singular chapter of literary history vitted by Warton and all former writers with whom we are acquainted; and we think we may add, that it forms

the best introduction to Dante that has yet been published."—*Literary Gazette*.

"This appears to be a curious and even amusing book on the singular subject of Purgatory, in which the idle and fearful dreams of superstition are shown to be first narrated as tales, and then applied as means of deducing the moral character of the age in which they prevailed."—*Spectator*.

LETTERS OF THE KINGS OF ENGLAND, now first collected from the originals in Royal Archives, and from other authentic sources, private as well as public. Edited with Historical Introduction and Notes, by J. O. HALLIWELL. Two HANDSOME VOLUMES, post 8vo, with portraits of Henry VIII and Charles I, cloth. 8s. (original price £1 1s.)

These volumes form a good companion to Ellis's Original Letters.

The collection comprises for the first time the love letters of Henry the VIII. to Anne Boleyn in a complete form, which may be regarded perhaps as the most singular documents of the kind that have descended to our times; the series of letters of Edward VI. will be found very interesting specimens of composition; some of the letters of James I. hitherto unpublished, throw light on the murder of Overbury, and prove beyond a doubt the King was implicated in it in some extraordinary and unpleasant way: see

his letters to the Duke of Buckingham are of the most singular nature; only imagine a letter from a sovereign to his prime minister commencing thus: "My own sweet and dear child, blessing, blessing, blessing on thy heart-roots and all thine." Prince Charles and the Duke of Buckingham's Journey into Spain has never been before so fully illustrated as it is by the documents given in this work, which also includes the very curious letters from the Duke and Duchess of Buckingham to James I. *Forming an essential companion to every History of England.*

- 1 On Local Nomenclature.

- 9 A Discourse of Genealogy.
- 10 An Antiquarian Pilgrimage in Normandy, with woodcuts.
- 11 Miscellanea, &c. &c. &c.

There is a good deal of quaint and pleasing reading in this volume. Mr. Lower's jokes are of the oldest—as befits the pleasantries of an antiquary,—but, on the whole, we seldom meet with more readable antiquarian essays than these. Most of them have been printed elsewhere. One, on the South Downs, contains the best of the new matter. The author is at home on the wide expanse of these chalk ranges. He speaks with knowledge of the picturesque villages enclosed in their secluded nooks,—of the folk-lore and legends of old days which still abound amongst the sequestered inhabitants, and of the historical associations which render celebrated many spots otherwise of little interest.—*Athenæum*.

Most of the papers in this volume have already appeared in periodicals, and in the Collections of

the Sussex Archæological Society. They are well worthy of being printed in a collected form. The account of the Battle of Hastings and the memoir on the Southern Iron Works contain matter of historical value, in addition to their local interest in connexion with the topography and archaeology of Sussex. Among the papers now printed for the first time that on the South Downs is the most important, and will be read with much interest, both for the information it contains and the pleasing style in which it is written. There are some charming descriptions of scenery and acceptable notices of the history, traditions, and customs of the district. Among the minor contributions in the volume, the paper on Local Nomenclature is full of valuable suggestions. Altogether it is a volume of very agreeable and instructive reading.—*Lit. Gaz.*

HANDBOOK to the LIBRARY of the BRITISH MUSEUM, containing a brief History of its Formation, and of the various Collections of which it is composed; Descriptions of the Catalogues in present use; Classed Lists of the Manuscripts, &c.; and a variety of Information indispensable for the "Readers" at that Institution; with some Account of the principal Public Libraries in London. By RICHARD SIMS, of the Department of Manuscripts, Compiler of the "Index to the Herald's Visitations." Small 8vo, pp. 438, with map and plan, cloth. 5s

It will be found a very useful work to every literary person or public institution in all parts of the world.

What Mr. Antonio Panizzi, the keeper of the department of printed books, says *might be done*. Mr. Richard Sims, of the department of the manuscripts, says *shall be done*. His Hand-book to the

Library of the British Museum is a very comprehensive and instructive volume. I have the sixtieth edition of "Synopsis of the Contents of the British Museum" before me—I cannot expect to see a sixtieth edition of the *Hand-book*, but it deserves to be placed by the side of the Synopsis, and I venture to predict for it a wide circulation.—*Mr. Bolton Corney, in Notes and Queries*, No. 213.

A FEW NOTES ON SHAKESPEARE, with Occasional Remarks on the Emendations of the Manuscript-Corrector in Mr. Collier's copy of the folio, 1632. By the Rev. ALEXANDER DYCE. 8vo, cloth. 6s

Mr. Dyce's Notes are peculiarly delightful, from the stores of illustration with which his extensive reading not only among our writers, but among those of other countries, especially of the Italian poets,

has enabled him to enrich them. All that he has recorded is valuable. We read his little volume with pleasure and close it with regret.—*Literary Gazette*.

BRITANNIC RESEARCHES: or, New Facts and Rectifications of Ancient British History. By the Rev. BEALE POSTE, M.A. 8vo, (pp. 448) with engravings, cloth. 15s

The author of this volume may justly claim credit for considerable learning, great industry, and, above all, strong faith in the interest and importance of his subject. On various points he has given us additional information and afforded us new views, for which we are bound to thank him. The body of the book is followed by a very complete index, so as to render reference to any part of it easy: this was the more necessary on account of the multifariousness of the topics treated, the variety of persons mentioned, and the many works quoted.—*Athenaeum*, Oct. 8, 1863.

The Rev. Beale Poste has long been known to antiquaries as one of the best read of all those who have elucidated the earliest annals of this country. He is a practical man, has investigated for himself monuments and manuscripts, and we have in the above-named volume the fruits of many years' patient study. The objects which will occupy the attention of the reader are—1. The political position of the principal British powers before the Roman conquest—under the Roman dominion, and struggling unsuccessfully against the Anglo-Saxon race; 2. The geography of Ancient Britain; 3. An investigation of the Ancient British Historians, Gildas and Nennius, and the more obscure British chroniclers; 4. The ancient stone monuments of the Celtic period; and, lastly, some curious and interesting notices of the early British church. Mr. Poste has not touched on subjects which have received much attention from others, save in cases where he had something new to offer, and the volume must be regarded, therefore, as an entirely new collection of discoveries and deductions tending to throw light on the darkest as well as the earliest portion of our national history.—*Atlas*.

The title of this Review explains its objects. It is intended to supply a place unfilled in our periodical literature, and this first number is very satisfactory. The papers are varied and interesting, not overlaid by the display of too much learning for the general reader, but showing sufficient research and industry on the part of the writers to distinguish the articles from mere ephemeral reviews of passing publications. In the prospectus the editor says "It is our design to select, from the vast field of the literature of the past, subjects which are most likely

to interest modern readers; we shall lay before them from time to time, essays on various branches of the literature of former days, English or foreign; we shall give accounts of rare and curious books; point out and bring forward beauties from forgotten authors; and tell the knowledge and opinions of other days." The design is well carried out in this number, and will, no doubt, be further developed as the work advances. It is to be published quarterly, at a very moderate price, and will, we have no doubt, prove a successful undertaking.—*Atlas*.

WILTSHIRE TALES, illustrative of the Manners, Customs, and Dialect of that and Adjoining Counties. By JOHN YONGE AKERMAN. 12mo, *cloth*. 2s 6d

We will conclude with a simple, but hearty recommendation of a little book which is as humorous, for the drolleries of the stories, as it is interesting as a picture of rustic manners.—*Talis's Weekly Paper*.

Mr. AKERMAN'S WILTSHIRE TALES embody most of the provincialisms peculiar to this county and the districts of other counties lying on its northern borders, and possess the additional recom-

mendation of preserving the old songs (and the airs to which they are sung), which are still to be heard at most harvest homes and other merry makings,—the well-known "Here's a health to our meeter," and a "A pis upon the pear tree top" among the rest. Both to the philologist, therefore, and to the general reader, the book is an interesting one.—*Salisbury and Winchester Journal*.

CHRISTMASTIDE, its History, Festivities, and Carols. By WILLIAM SANDYS, Esq., F.S.A., in one handsome vol. 8vo, ILLUSTRATED WITH 20 ENGRAVINGS AFTER THE DESIGNS OF J. STEPHANOFF, cloth. 14s

Its title vouches that *Christmastide* is germane to the time. Mr. Sandys has brought together, in an octavo of some 300 pages, a great deal of often interesting information, beyond the stale gossip about "Christmas in the olden time," and the threadbare make-believes of jollity and geniality which furnish forth most books on the subject. His carols too, which include some in old French and

Provencal, are selected from numerous sources, and comprise many of the less known, and more worth knowing. His materials are presented with good feeling and mastery of his theme, and for excellent taste and appropriateness in binding, without extreme costliness, the book is a model. On the whole, the volume deserves, and should anticipate, a welcome.—*Spectator*.

A description of remains discovered in the sites of ancient cities and temples in Peru, those objects which arrested the attention and excited the wonder of the philosophic Humboldt, when investigating the physical features of that remarkable country. The illustrative plates, executed at Vienna, from the drawings of the Artist, are among the marvels of lithography. They comprise representations of mummified bodies, prepared in the manner peculiar to the Peruvians, vases of gro-

tesque form and characteristic idols in terra cotta and the precious metals, textile fabrics, weapons of a very remote period, and view of temples and buildings, which, for symmetry and beauty, may vie with those of Greece and Asia Minor in the dawn of civilisation, all executed with a spirit and truthfulness unsurpassed by any work of the kind that has come under our notice.—*Literary Gazette*, Jan. 8, 1853.
